

Bridport Cohousing - affordable eco-homes for sale or rent - coming soon!!

We have at last begun the process of building the affordable neighbourhood of sustainable eco-homes that has been in the planning stages for so long. The first phase of off-plan houses and flats are being released in a few weeks time for leasehold purchase at 80% of open market value, and members of Bridport Cohousing Community Land Trust will at last be able to look forward to our dream becoming a reality, as we anticipate starting the groundworks in December and building the timber frame modular homes and common house by mid summer 2019.

The first step towards owning or renting one of these beautiful architect designed homes, situated on the northwest edge of Bridport and surrounded by delightful Dorset countryside, is to have a look at what the benefits of living in cohousing might mean for you and to become a member of the CLT. We hold regular events for people who may be curious to learn about living in a neighbourhood where it is made easy for families and individuals to come together to enjoy shared activities like eating together and community gardening, while at the same time enjoying their own personal space, whenever they need it, and private self contained accommodation.

Keep a lookout on our website and Facebook page for events and for more news at the end of October, when the sales brochure will be available and sign up to our newsletter or phone 07907 993 587 for more information.
